DETAILED ACTION

1. This non-final Office action is responsive to Applicant's response filed August 19, 2005.

Allowable Subject Matter

2. Claims 1-37 would be allowable if rewritten or amended to overcome the Double Patenting rejection, set forth in this Office action.

The closest prior art of record is Zhang et al. (U.S. Patent No. 6,016,478) in view of Meeting Maker XP, as disclosed in Rizzo ("Meeting Maker XP: ON Technology Takes Its Group Scheduler Cross-Platform"). Applicant's arguments presented on pages 14-16 of the response filed on August 19, 2005 succinctly define what the prior art teaches and how the claimed invention is distinct from the prior art. The Examiner finds these arguments to be persuasive (particularly the arguments addressing the claimed determination of whether one or more potential invitees are available during a requested time period and the automatic sending of the electronic mail invitation based on this determination); therefore, claims 1-37 are deemed to be allowable over the prior art of record.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA

Art Unit: 3623

1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1, 5-7, 17, 26, and 30 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 3, 11, and 15 of U.S. Patent No. 6,101,480. Although the conflicting claims are not identical, they are not patentably distinct from each other because the principle difference between the two groups of claims is that the claims in the patent additionally recite details of a best fit determination. In other words, claims 1, 5-7, 17, 26, and 30 are broader than claims 3, 11, and 15 of U.S. Patent No. 6,101,480 and elimination of an element or its functions is deemed to be obvious in light of prior art teachings (which similarly applies to the Double Patenting analysis), as per *In re Karlson*, 136 USPQ 184, 186; 311 F.2d 581 (CCPA 1963).
